

APOGEE INDUSTRIES

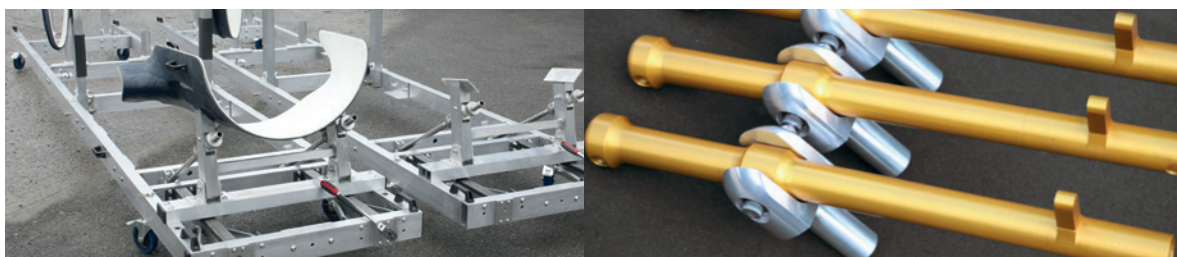

If you can imagine it, we can engineer it

FABRICATION AND ASSEMBLY

Apogee are proud to provide a top quality, technical and mechanical fabrication service to a wide range of sectors. We are able to accommodate a vast range of requests from a custom design and manufacture of aluminium frames for the transportation of acrobatic aircraft around the world to batch production of bespoke furniture, architectural structures and agricultural applications to name but a few. Apogee is also able to offer clients modification and repair work in parallel with new projects.

Plating, anodising and powder coating services are offered to complement a fabrication project as and when required.

Apogee also facilitates complex assembly projects for their customers to high specification industries including the Oil & Gas, Aerospace and Automotive sectors.

Fabrication Capabilities

- > MIG
- > TIG
- > ARC
- > Brazing
- > Soldering

Assembly Capabilities

- > Hardening & Tempering
- > Bending
- > Rolling
- > Press Tooling
- > Jigs

Complimentary Services

- > Anodising
- > Powder Coating
- > Plating
- > Laser Cutting
- > Water Jetting
- > Grinding
- > Wire eroding
- > Spark eroding
- > Gundrilling and deep-hole boring
